

GETTING YOUR HANDS DIRTY IS HEALTHY!

Gamble Creek Farms is now hosting student field trips! Students from elementary to university level can now visit to learn about sustainable food and farming that supports long-lasting environmental and personal health benefits. We work with teachers and professors to customize their day based on an existing curriculum that aligns with coursework.

→ THINGS THEY WILL LEARN:

- 1 How to turn food waste into nutrient rich soil
- 2 How to seed and plant
- 3 How to harvest in ecological gardens
- 4 Information on pollinator species
- 5 The importance of growing multiple crops instead of a single crop
- 6 The important of growing without harmful chemicals
- 7 Using the resources around you to help your local environment
- 8 How plants eat

Our field trips take place on Mondays, Wednesdays, or Thursdays for groups of 10 or more. Please note that students will need to sign a waiver in advance. Email GFO@chilesgroup.com for pricing information and to register your class field trip.

→ FARM DAY EXPERIENCE

TOUR THE FARM

Our 26-acre farm allows visitors to truly understand how a farm functions and operates. Join our farmers as they take you to each area of crops, herbs, plants, and composting.

- Ecological gardens, compost, and production fields
- Organic Fields
- Pollinator species: butterflies, bees, etc.
- Green House
- Eucalyptus Grove
- Birds: turkeys, endangered wood stork
- Soil Production
- Gamble Creek
- Farming Equipment

SEE HOW WE HARVEST

Observe the process of harvesting – gathering the crops once ready. Learn about what it takes to properly extract for consumers.

KITCHEN PROCESSING

Visit our commissary for the final phase – bringing our produce into a kitchen. This is a chance to see how we use our products to make vegetable soup.

OPTIONAL LEARNING ACTIVITY

Based on your students' age and time at the farm, we can create a custom interactive activity. Please speak to our farm team to plan what that may be.

Our field trips take place on Mondays, Wednesdays, or Thursdays for groups of 10 or more. Please note that students will need to sign a waiver in advance. Email GFO@chilesgroup.com for pricing information and to register your class field trip.
